

MESSAGE GEL

A pleasant gel with a good spreadability and absorption on the skin. It is indicated for Spa treatments. The gel is used to make a gentle scrub and massage on the body. After the massage, the beads are completely dissolved and the gel absorbed, it doesn't need to be rinsed off.

VIVASTAR® CS 052 Alginate has moisturizing and filming properties, it improves the spreadability of the gel.

VIVAPUR® CS TEX Easy has gelling properties, in combination with Algin it gives a very nice skin feel, perfect for a massage gel. VITACEL® CS 300 Soft are soft beads with a mild exfoliating action, they disappear on the skin during the massage.
